

Green Light! Back to Work!

Tuesday, May 19th, 2020

Our Schaefer Marine Team is happy to announce that we have the “green” light to reopen thanks to Governor Baker allowing manufacturing to begin again. We have our machine shop open and we’re now sorting out the many projects that we need to catch up on.

Please bear with us during this unusual transition and let us know how we can help. We continue to have nothing but the utmost respect and thanks for our front-line workers who have done incredible work for all of us during this Pandemic. At Schaefer we are practicing all of the measures put in place to keep all of us safe.

We are looking forward to getting used to our “new normal” and spending some sorely needed time on the water this summer!
